J. A. ROBERTSON

Offg. Director-General of Statistics

E. N. BAKER

Secretary to the Government of India

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 a.m. on Thursday,
the 21st January 1904, based on the India Daily Weather Reports
of the period.**

The weather was quiet and rainless over the Peninsula during the week under review, but at the close of the week the barometer was falling, the sky clouding over and conditions promised to become unsettled again over that area.

In Northern India the weather has been very unsettled. The depression noticed last week had reached the west of the United Provinces by the morning of the 15th, and rain had fallen over the Punjab and the adjacent districts of the United and Central Provinces—the heaviest falls having been 1.54" at Sialkot, 1.51" at Rawalpindi, 1.32" at Chakrata and 1.02" at Peshawar. On the 16th the weather was more settled, but light showers were reported from the north of the North-West Frontier Province and of the Punjab and light snow from the Kumaon Himalayas. There was no important change on the 17th and the light precipitation recorded was confined to the hill and submontane stations of Upper India. The reports of the 18th showed that a deepish depression had appeared over the interior ranges of the North-West Himalayas and a shallow depression over Central India and the Central Provinces. In consequence the weather was more disturbed. Snow had fallen over the Kumaon Himalayas and showers of rain over the Central and United Provinces and the west of Bengal. The reports of the next day, the 19th, showed that further showers had fallen over the United Provinces, Bihar and Chota Nagpur, while the snow on the Kumaon Himalayas (measured as rainfall) was 1.72" at Chakrata, 1.16" at Ranikhet and 1.14" at Mussooree. On the 20th and 21st there was no rain in any part of India except some showers in the Assam Valley, but in Persia rain had fallen on both days and this unsettled weather was advancing eastward towards North-West India; so that at the close of the week conditions were unsettled and promised further rain and snow in the north-west.

The rainfall table shows that effective rain was received during the week over the Brahmaputra Valley, the East Himalayas and Sub-Himalayas, the West Himalayas and Sub-Himalayas, the Gangetic Plain, West, the North-West Dry Area and the East Coast South (due to rain in Ceylon) divisions and over the Patna, Jhansi, Jaipur and Calicut sub-divisions, but that elsewhere the fall was actually or practically *nil*. Where rain was received it was generally heavier than usual and in the Simla sub-division the excess was nearly 2.00".

The seasonal rainfall exceeds the average over the Patna sub-division and over the West-Himalayas, North-West Dry Area, Baluchistan, South India and East Coast South divisions.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA:
The 21st January 1904.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
16th January 1904.

Madras.—There was no rain during the week in the Circars, the west coast districts, parts of the Deccan and central districts; elsewhere the fall was light. Irrigation supplies are sufficient. Ploughing, sowing, and transplanting are in progress in parts. The standing crops are generally good. Harvests continue with fair outturn. Pasture is sufficient. Fodder is procurable. The condition of cattle is good. Price of rice is almost stationary, but prices of dry grains have slightly risen in several districts.

Bombay.—There was slight rain during the week in parts of Sind and very slight in parts of Ahmednagar and Sholapur. The rainfall is generally sufficient, but more rain is needed for spring crops in parts of Khandesh, Nasik, and Poona. The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, and Satara; by rats in parts of Khandesh, Nasik, Sholapur, and Bijapur; by frost in parts of Larkana, Hyderabad, Ahmedabad, and Panch Mahals; and by blight in parts of Belgaum and Dharwar. They are also suffering from insufficient moisture in parts of Poona and Sholapur, and are generally in good condition elsewhere. Harvesting of autumn crops continues in parts of Sholapur, Satara, Carnatic, and Baroda. Threshing is completed in Larkana and Thana; is nearly over in Kolaba; and continues in parts of Nasik, Ahmednagar, Poona, and Satara. Cotton is slightly damaged by frost in parts of Hyderabad, Ahmedabad, and the Panch Mahals, and by rats or blight in parts of Bijapur and Dharwar; it is in fair condition in Broach and Surat and generally in good condition in Belgaum, Wadhwan, and Rajkot. Picking is completed in Khandesh, is nearly over in Hyderabad, and continues in parts of Ahmedabad, Ahmednagar, Poona, and Rajkot. The fodder supply is sufficient. Agricultural stock is generally sufficient and in good condition. The water-supply is generally adequate. Prices of food-grains have fallen in three districts, risen in two districts, and are stationary elsewhere.

Bengal.—Light showers are reported from the districts of Gaya, Saran, and Bhagalpur. The districts of Burdwan, Murshidabad, Champaran, Darbhanga, Malda, Sonthal Parganas, Hazaribagh, and Palamau are in need of rain. It is reported that some damage has been caused to the spring crops by insects in Burdwan. Prospects are otherwise good. Harvesting of winter rice is nearly finished. Pressing of sugarcane continues. Fodder and water are sufficient. The price of common rice has risen in eight districts, has fallen in thirteen, and is stationary in the remainder.

United Provinces.—Slight rain has fallen in most districts in the provinces, Dehra Dun and Meerut having received over an inch. The weather continues cloudy. The rain has benefited the spring crops and prospects are generally good. The irrigation and weeding of poppy continues. The extraction of opium has commenced in parts of Allahabad. Sugarcane is being pressed. Markets are amply stocked and food and fodder are sufficient. Prices are stationary.

Punjab.—Good rain has fallen in all districts except Umballa, Delhi, and Hissar. Hissar wants more rain and Delhi has received very little. The price of wheat is rising in Hissar and Jullundur, and falling in Lahore, Mianwali, and Multan. The prices of other food-grain are fluctuating. Pressing of sugarcane is in progress in Jullundur, Lahore, Amritsar, and Sialkot. Sowing of spring crops is completed in Shahpur. The condition of the standing crops is satisfactory except in Delhi and Hissar. The outturn of sugarcane and toria (*Brassica campestris*) in Sialkot and of cotton in Shahpur is said to be average. The rapeseed crop is being damaged by caterpillars in parts of Ferozepore and has suffered somewhat from frost in Sialkot. Cattle are generally in good condition. Fodder is sufficient in all districts.

North-West Frontier Province.—The rainfall has been unusually heavy and general—Hazara has had $5\frac{1}{2}$ inches, Peshawar 3, Kohat $2\frac{1}{2}$, Bandu 1, and Dera Ismail Khan $1\frac{1}{2}$ inches. The rainfall has much benefited the standing crops. A break is now required. Wheat and barley are still being sown on *barani* lands. Much snow has fallen on the hills. The stocks of food-grain and fodder are ample. Prices are falling in Peshawar, but are stationary in Dera Ismail Khan.

Burma.—No rain fell during the week in Lower Burma. Reaping of paddy is approaching completion in five districts and has been completed elsewhere. In Upper Burma wet

weather paddy and other crops are being reaped. Cultivation of dry weather paddy is nearly completed in the Minhla township of the Thayetmyo district and is progressing in Katha and the Upper Chindwin. Picking of cotton is completed in Myingyan. The outturn of wet weather paddy is reported to be bad in parts of the Wuntho sub-division of the Katha district. The price of paddy has risen slightly in Pegu, Tharrawaddy, and Minbu, and fallen in Monywa, Myaungmya, and Shwebo; elsewhere it is unchanged.

Central Provinces.—Very light showers have fallen in eleven districts. These showers have done some good, but more rain would be very beneficial. The spring crops on light soils are not progressing well owing to the dryness of the soil. Slight damage has been caused in parts to linseed by cloudy weather. The general prospects of the spring crops point to about a normal outturn, but they would be improved by some rain. The harvesting of autumn crops and the picking of cotton has practically been completed. Prices have risen in the Narsinghpur district; elsewhere they are fairly steady.

Assam.—Slight rain fell in Sibsagar during the week. Rain is wanted in the Surma Valley. Harvesting of winter rice is nearly finished and the outturn is good. Tea pruning, sugarcane pressing, and gathering of pulse are in progress. All crops are doing well. Ploughing for rice and jute have commenced. Fodder is insufficient in parts of Cachar and in the hills. Water is insufficient in the Khasi and Jaintia Hills. Prices—common rice—Sylhet 18; Silchar 17; Dhubri, Gauhati, and Nowgong 16; Tezpur 14; Sibsagar 13; and Dibrugarh 12 seers per rupee.

Mysore.—Prices are generally steady. The standing crops are good. Paddy and ragi (*Eleusine coracana*) are being harvested. Prospects of the season are good. Cattle are healthy. Water and fodder are available.

Coorg.—Reaping of rice and picking of coffee continue. Prices of food-grains are stationary. Public health is fair. Water and fodder are sufficient.

Hyderabad.—There was no rain during the week. The early rice harvest is nearing completion. The spring crop is fair and weeding is in progress. Late rice sowing continues. Prospects are good. Prices—wheat 11, rice 10½, and jowari 33 seers per halli rupee.

Rajputana.—There was slight rain in places during the week. Agricultural operations are satisfactory. The condition of the standing crops and cattle is good. Fodder is ample. Prices are favourable.

Central India.—Slight rain fell in Bundelkhand during the week, but none elsewhere. Agricultural operations are in progress. Crops are good in Gwalior, Bhopal, Baghelkhand, Bundelkhand, and Bhopawar, and fair in Indore and Malwa, but have been slightly damaged by excessive cold in parts of Bhopawar. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, Bhopal, and Baghelkhand, and are steady in Bundelkhand, Malwa, and Bhopawar. Opium is good in Gwalior, Bhopal, and Malwa, and indifferent in Indore.

Kashmir.—The weather is snowy and very frosty and extremely cold. Prices are stationary.

Jammu.—There was good rain during the week. Prices are fluctuating. Wheat sells from 17 to 26 seers and maize 24 to 40 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. The recent rains have been beneficial to the standing crops. Spring sowings have been finished.

Nepal.—There was no rain during the week. The weather has been cloudy and cold. The price of rice is 6¼ seers for the rupee.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.
RAILWAY STATISTICS.

STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.

N.B.—As regards the figures in column *Total earnings*, audited figures have been used as far as possible.

SUPPLEMENT TO
The Gazette of India.

No. 5.}

CALCUTTA, SATURDAY, JANUARY 30, 1904.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 a.m. on Thursday,
the 28th January 1904, based on the India Daily Weather Reports
of the period.**

The weather over India has been quieter than was anticipated during the week under review. The unsettled conditions which at the close of last week were apparently approaching the Peninsula from the Bay never developed to any importance and beyond giving showers to Ceylon did not affect the weather in the south to any extent worth recording. Similarly the unsettled weather which was giving rain to Persia on the 20th and 21st and was advancing eastward did not enter India and did not affect conditions over this country. Snow or rain fell in Baluchistan, at Cherat, at some of the hill stations in the North-West Himalayas and in Kashmir, but over the plains of North-West India the weather was generally fine and rainless. A very slight storm, however, appeared over Gujarat on the 22nd and light showers were reported from Gujarat and the Central India Plateau on the 23rd and 24th, while moderate showers were received over the extreme north-east of India on the 26th, 27th and 28th.

The rainfall table shows that effective rain was received during the week in the Brahmaputra Valley, the Dinajpur sub-division, the Simla sub-division, Baluchistan, the Jhansi sub-division, the Indore sub-division, the Calicut sub-division and the South division of the East Coast. Elsewhere the rainfall was actually or practically *nil*. The week's rainfall was considerably heavier than usual in Baluchistan and in trifling excess in the Indore and Rajkot sub-divisions, and the East Coast (South) division, while elsewhere it was more or less in defect. The absence of rain over North-West India has occasioned a decrease in the seasonal excess over the West Himalayas and the North-West Dry Area, but elsewhere the seasonal conditions are practically unchanged.

At the close of the week the barometer was falling everywhere but the weather in Persia and Baluchistan remains fine and gave no sign of an immediate change.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observations

J. WILSON,
Secretary to the Government of India

SIMLA:
The 28th January 1904.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Season and Crop Prospects for the week ending Saturday,
23rd January 1904.**

Madras.—There was no rain during the week. Irrigation supplies are sufficient. Ploughing, sowing, and transplanting are in progress in parts. The standing crops are generally good. Harvests continue with fair outturn. Pasture is sufficient. Fodder is procurable. The condition of cattle is good. Prices are almost stationary.

Bombay.—Very slight showers fell during the week in parts of Karachi, Hyderabad, and Ahmedabad. The rainfall is generally sufficient, but more rain is needed for spring crops in parts of Larkana, Khandesh, Nasik, and Poona. The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, and Satara; by rats in parts of Khandesh, Nasik, Ahmednagar, Sholapur, and Bijapur; by frost in parts of Larkana, Hyderabad, and Ahmedabad; and by blight in parts of the Carnatic. They are also suffering from insufficient moisture in parts of Poona and Sholapur, and are generally in good condition elsewhere. The harvesting of autumn crops is nearly completed in Satara and continues in parts of Sholapur, the Carnatic, and Baroda. Threshing is completed in Thana, is nearly over in Colaba and Satara, and continues in parts of Nasik, Ahmednagar, Poona, and Canara. Harvesting of spring crops has commenced in parts of Ahmednagar, Poona, Satara, and Belgaum. Cotton is slightly damaged by frost in parts of Ahmedabad and Broach; and by rats or blight in parts of Bijapur and Dharwar; is in fair condition in Panch Mahals, and Surat, and generally in good condition in Belgaum, Wadhwan, and Rajkot. Picking is completed in Khandesh, is nearly over in Hyderabad, and continues in parts of Ahmedabad, Ahmednagar, and Rajkot. The fodder supply is sufficient. Agricultural stock is generally sufficient and in good condition. The water supply is generally adequate. Prices of food-grains have fallen in three districts; risen in two districts; and are stationary elsewhere.

Bengal.—Light showers are reported from Bihar and parts of North Bengal and Chota Nagpur. The recent rain has been beneficial to the standing spring crops. Rain is needed in Burdwan and Palamau. Some damage has been caused to the spring crops by insects in Burdwan and to poppy by caterpillars in Champaran. Prospects are otherwise good. Harvesting of winter rice is almost over and threshing is going on. Preparation of lands for early rice, jute, and sugarcane has commenced in places. Fodder is sufficient. Scarcity of water is reported from parts of Malda. The price of common rice has risen in eleven districts, has fallen in five, and is stationary in the remainder.

United Provinces.—There was slight rain in all districts during the week except Naini Tal, Moradabad, Meerut, Mainpuri, Hardoi, and Ghazipur; but more rain is needed in eight districts. The standing crops have been slightly damaged by hail in Bahraich, Allahabad, and Banda, but are otherwise in good condition. The pressing of sugarcane continues. The irrigation of spring crops and poppy is going on. Fodder and food are sufficient, and prices continue stationary.

Punjab.—Slight rain has fallen in parts of Umballa and Rawalpindi. The price of wheat is falling in Jullundur, Rawalpindi, and Mianwali and rising in Lahore. The prices of other food-grains are fluctuating. Pressing of sugarcane continues in Jullundur, Lahore, Amritsar, and Sialkot. The til (sesamum) crop is being threshed and cleaned in Mooltan. The condition of the standing irrigated crops is reported good throughout the province, but that of unirrigated crops is unfavourable except in Delhi and Hissar. The outturn of sugarcane in Sialkot and Shahpur and of til (sesamum) in Mooltan is said to be average. The rapeseed crop is being damaged by caterpillars in parts of Ferozepore. Cattle are generally in good condition. Fodder is sufficient in all districts except in parts of Rawalpindi.

North-West Frontier Province.—Showers have fallen in Hazara, but there was no rain elsewhere and none is required at present. The condition of the standing crops is very good. Wheat and barley are still being sown on *barani* lands and an unusually large spring crop area is anticipated. The stocks of food-grains are ample. Prices are easy and stationary.

Burma.—There was no rain during the week in Lower Burma. Reaping of paddy is completed and threshing is in progress. A normal crop is expected. In Upper Burma the reaping of wet weather paddy is completed in all but four districts. Cultivation of

dry weather paddy and other crops is progressing. The outturn of wet weather paddy is good except in parts of Katha, the Ruby Mines, and Yamethin districts. The price of paddy has risen in Tharrawaddy, Prome, Thongwa, and Pakokku, and slightly in Rangoon and Thayetmyo, but has fallen in Akyab, Thaton, Menbu, and Bhamo.

Central Provinces.—No rain has fallen during the week. Threshing of rice and the picking of cotton have been almost completed. The spring crops are generally in good condition, but wheat is beginning to dry up on high lands and a few showers of rain would greatly improve the prospects. Slight damage has been caused by hail in a few villages of the Hoshangabad district. Very slight damage has also been caused to linseed by cloudy weather and insects in parts of the Jubbulpore, Raipur, and Bilaspur districts. Prices have fluctuated slightly.

Assam.—There was slight rain in Upper Assam during the week. Harvesting of winter rice and pulse is nearly finished and the outturn is good. Tea pruning, sugarcane-pressing, and ploughing for early rice and jute are in progress. Gathering of mustard has commenced. Prospects are fair. Fodder is insufficient in parts of Cachar and in the hills. Water is insufficient in the hills. Prices—common rice—Sylhet 18; Silchar 17; Dhubri, Gauhati, and Nowgong 16; Tezpur 15; Sibsagar 13; and Dibrugarh 12 seers per rupee.

Mysore.—Prices are generally steady. The standing crops are good. Paddy is being harvested. Prospects of season are good. Cattle are healthy. Water and fodder are available.

Coorg.—Threshing of rice has commenced and picking of coffee continues. Prices of food-grains are stationary. Water and fodder are sufficient.

Hyderabad.—There was no rain during the week. The early rice harvest is nearly completed. The spring crop is in good condition and the harvest has commenced in parts. Late rice is good and sowings continue. Prospects are good. Prices—wheat 11; rice 11; and jowari 32½ seers per halli rupee.

Rajputana.—Slight rain fell throughout province during the week except in Jaisalmer and Karauli. Agricultural operations are satisfactory and the condition of the standing crops and cattle is good. Fodder is ample. Prices are favourable.

Central India.—There was slight rain in parts of Gwalior and Bundelkhand during the week, but none elsewhere. Agricultural operations are in progress. Crops are good everywhere, but have been slightly damaged by the excessive cold in Malwa. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, Bhopal, and Baghelkhand, and steady in Bundelkhand, Malwa, and Bhopal. Opium is good in Gwalior, Bhopal, and Malwa, and indifferent in Indore.

Kashmir.—The weather is snowy and very frosty and extremely cold. Prices are stationary.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 16 to 26 and maize 24 to 40 seers per rupee. The condition of the standing crops is good. Fodder is sufficient.

Nepal.—There was no rain during the week. The weather is frosty and very cold. Rain is needed badly for the standing crops. The price of rice is 6½ seers for the rupee.

J. WILSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA
DEPARTMENT OF REVENUE AND AGRICULTURE

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

PUBLIC.

COMMEMORATION OF HOUSES IN WHICH DISTINGUISHED MEN HAVE
LIVED OR WHICH ARE OF HISTORICAL IMPORTANCE.

No. 234-45, dated Calcutta, the 29th January 1904.

RESOLUTION.

About three years ago the Government of India were led to consider the methods that might most advantageously be adopted for the preservation of historical relics and of interesting sites or buildings in India, and for the perpetuation of the surviving records of a past that is every day tending to disappear more and more from the public recollection. Among the objects that commended themselves to their notice from this point of view was the commemoration of the houses or dwellings which are notable for their historical associations, or in which distinguished public men, whether European or Indian, have resided at different portions of their careers. A good many of these are still standing, and are pointed out with certainty to the student or traveller. The antecedents and identity of others are already becoming matters of uncertainty; and authentic history is beginning to pass, in some cases into tradition, in others into legend. It seemed desirable, before this process has attained further dimensions, to arrest and crystallize as far as possible the definite knowledge that is still forthcoming of the former residences of men who have left an enduring mark upon the civil and military administration or upon the moral and intellectual development of India.

2. In England the Society of Arts has for some time past interested itself in a similar undertaking, by placing upon the facade of houses in London and elsewhere a Circular terracotta medallion with a simple inscription on its face, recording the fact that this or that famous personage lived there in such and such a year or years. In this way, a number of valuable historical memories have been revived or recovered; and a walk through some of the older London streets has been rendered not only interesting but instructive.

3. Accordingly, after careful consultation with the Local Governments concerned, the Government of India have determined to adopt a similar plan in this country. The buildings which they have decided to commemorate for historical reasons or as having been the residences of famous men are shown in the statements annexed to this Resolution which indicate the grounds for the decision in each case. The number is necessarily limited, and great care has been exercised in the selection of those buildings whose associations are mainly personal, so as to prevent that which should be an honour to the few from becoming the prerogative of the many. Some of these houses are the property of Government, and no difficulty arises in the placing of a memorial medallion upon them. Others belong to private persons; and the permission of the owner has been sought for its erection. It is understood that in all cases this has been readily given. It has not been found in England that any serious objection has been entertained by individual proprietors to the fulfilment of what is really a public trust: and the Government of India have not been disappointed in their expectation that the standard of public spirit in India would be found to be in no way lower than in Great Britain. The Governor General in Council trusts that the measures now adopted will have the effect of preserving those personal and local associations which in India are peculiarly liable to be forgotten, and that a direct stimulus will thus be given to the more intimate study of the history of the past. The example thus set may perhaps admit of being followed in places where distinguished Indian statesmen have rendered conspicuous service to Native States.

ORDER.—Ordered that a copy of this Resolution (with enclosures) be forwarded to Madras, Bombay, Bengal, United Provinces, Punjab. the Local Governments named on the margin and also to the Foreign, Public Works and Finance Departments for information [and further necessary action]. Ordered also that the Resolution be published in the *Supplement to the Gazette of India*.
[To Foreign Department only.]

H. H. RISLEY,

Secretary to the Government of India.

Notable Buildings with the reasons for commemorating them.

MADRAS.

Name of building.	Place.	Reasons for commemoration.
1. Campbell House in the civil lines.	Bellary	This house was occupied by Major (afterwards Sir Thomas) Munro, <i>circa</i> 1801.
2. Wellington House in the cantonment.	Ditto	This house was occupied by Colonel Wellesley (afterwards the Duke of Wellington), <i>circa</i> 1800.
3. Royal Hotel	Ditto	This house was occupied, <i>circa</i> 1841-42, by General J. G. Neill (Madras Fusiliers), who fell in the relief of Lucknow.
4. Writers' Buildings, Fort St. George.	Madras	Robert (afterwards Lord) Clive lived in these buildings on his arrival in India, 1744.
5. House by Accountant General's Office, Fort St. George.	Ditto	This house was occupied by Colonel Wellesley (afterwards the Duke of Wellington) <i>circa</i> , 1798.
6. Chempauk Palace or Kalasamahall, South Beach Road, Triplicane.	Ditto	These buildings were formerly the palace of the Nawabs of the Carnatic.

4. Cubbon bungalow on the Nandi Hills.	Kolar . . .	Summer residence of Sir Mark Cubbon, Commissioner of Mysore, 1834—61.
5. North Gate bungalow on the Nandi hills.	Ditto . . .	This house was built in the time of Tippoo Sultan and occasionally used by him as his residence.
6. Building in the top of the Budikota Hill (7 miles from the Bowringpet Railway Station).	Ditto . . .	Birth-place of Nawab Hyder Ali, Ruler of Mysore, 1759—82.
7. Wellington Lodge .	Mysore . . .	This house was occupied by the Duke of Wellington when in political charge of Mysore, 1799—1802.
8. Sir P. U. Krishnamurti's bungalow.	Seringapatam . .	Residence of Lieutenant-General George, afterwards Lord Harris, Acting Governor of Madras, 1798, who commanded in the war against Tippoo Sultan, which ended with the capture of Seringapatam, May 4, 1799 ; also of Purnaya, <i>Diwan</i> to the Maharaja of Mysore, 1799—1811.
9. Daria Dowlat . . .	Ditto . . .	Residence of Colonel Wellesley, afterwards Duke of Wellington, when Governor of Seringapatam, in 1799.
10. The Residency, now Government House.	Mysore . . .	This house was occupied by Sir John Malcolm, when Resident at Mysore, in 1807.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

COMMERCIAL EXHIBITIONS.

RULES OF THE LIEGE UNIVERSAL AND INTERNATIONAL EXHIBITION OF 1905.

No. 2-30-11., dated Calcutta, the 28th January 1904.

RESOLUTION.

The *Gazette of India* of the 12th of June 1903 contained a Notification regarding the Universal and International Exhibition which will be held at Liege in 1905. The Government of India have now received a translation of the general rules which have been drawn up by the Central Administration of the Exhibition for the guidance of intending exhibitors; the following extracts from which are published for general information. All enquiries regarding the Exhibition should be addressed to the Consul General for Belgium, Calcutta

"LIEGE UNIVERSAL AND INTERNATIONAL EXHIBITION OF 1905.

ARTICLE 1.

The Exhibition will include chiefly art works (Painting, Sculpture, Engraving and Architecture), scientific works and the industrial and agricultural plant and productions of all nations.

It will further include old art, military art and Colonial Exhibitions; a portion of the latter will be specially set aside for the Congo Section.

Machinery of every description will, as far as practicable, operate under the eyes of the public for the purpose of showing visitors the mode of working same and initiating them into the different lines of manufacture.

Special temporary shows and exhibits of agricultural machines in operation, live stock, plants, flowers, fruits, vegetables, etc., are contemplated and those will be regulated by independent rules.

ARTICLE 3.

The Exhibition will be inaugurated end of April 1905, and remain open for a period of at least six months, with the option for the Executive Committee to prolong it until the 15th November inclusive.

ARTICLE 11.

The necessary measures will be taken by the Government for protecting in Belgium patentable inventions, industrial designs and models, as well as manufacturing or trade, marks appearing at the Exhibition. It will be strictly forbidden to take copies, drawings, measurements, photos, cards or models of any objects exhibited unless with the exhibitor's consent; the closest watch will be kept to enforce this rule. Nevertheless neither the Board of Directors nor the Executive Committee will incur any responsibility on account of infractions of this provision, dereliction of duty on the part of the guardians or violation of orders given by them.

The Executive Committee reserve to themselves the right of allowing general views to be taken without the exhibitors' consent being required.

ARTICLE 13.

No exhibits may be removed before the close of the Exhibition, except with the Executive Committee's special consent in writing.

ARTICLE 26.

Exhibitors whether singly or collectively will have to bear the entire expense of their installations, such as special decoration, superstructure and consolidation of floors, partition framework and coating, ceilings, drapery, supply of furniture arrangement ornamentation, laying out, preservation and cleaning of goods, foundations, fixing up, motive powers, steam, water, gas, electricity, taking down, storage of empties; insurance, plantings and special levellings; customs or excise duties; license dues on excisable commodities, etc., etc., all measures in this connection to be approved by the Executive Committee and the Commissioner-General of the Exhibition. Exhibitors will be held responsible for any damages caused by their installations to floorings, partitions, etc., in their use, and for such dilapidations as might be considered due to misuse.

No exhibitor shall be allowed to set up his installation in such a way as to deprive another exhibitor from light, or to cause him any inconvenience or prejudice whatsoever.

No exhibit shall be removed until the exhibitor has settled the charges for space, selling dues, damages (if any), etc.

ARTICLE 28.

Exhibits must be completed and all work connected therewith terminated before April 15, 1905.

Machinery and appliances which can only be fixed or mounted by passing over the space of other exhibitors shall be completely set up six months prior to the opening of the Exhibition or even earlier, should the Executive Committee deem necessary in certain cases.

All machinery foundation work must be terminated at least four months beforehand.

Should the exhibitor fail to comply with above dates, he will *ipso facto* lose all claim to his space, the admission certificate will be deemed cancelled and the space rent paid will be forfeited to the Exhibition Company, without any legal or other proceedings being required. In such case, the Executive Committee will be entitled to remove unfinished installations or to have the same completed at exhibitor's expense and risk."

J. WILSON,

Secretary to the Government of India.

SUPPLEMENT TO
The Gazette of India.

No. 6.]

CALCUTTA, SATURDAY, FEBRUARY 6, 1904.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 a.m. on Thursday, the 4th February 1904, based on the India Daily Weather Reports of the period.

The weather has been disturbed with a considerable amount of rain over Persia during the past week, but these unsettled conditions have not advanced eastward, so that Baluchistan and the plains of North-West India have been actually or practically rainless during the week under review. On the 3rd February the barometer fell with great rapidity over Kashmir and unsettled, snowy and rainy weather set in over that area. This unsettled weather advanced eastward during the day and subsequent night when rain was received over the North-West Himalayas as far east as Dehra Dun. Rain also extended lightly to Peshawar and Montgomery. The principal amounts reported on these two days were 0·40" at Minimarg, 0·14" at Dras and 0·22" at Sonemarg on the 3rd, and 0·46" at Minimarg, 0·35" at Sonemarg, 0·20" at Srinagar, 0·22" at Simla and 0·32" at Chakrata on the 4th February.

The weather has been slightly disturbed in North-East India. At first the showers were confined to the Assam Valley, but on January 31st a shallow depression was developed over Bengal and on February 1st and 2nd showers fell over a considerable part of Bengal and Assam and at some stations in Burma. The principal amounts were 2·78" at Narayan-ganj, 1·35" at Cherra Poonjee, 0·79" at Silchar, 0·78" at Mymensingh, 0·73" at Jalpaiguri and 0·68" at Jessore on the 1st, and 0·86" at Chittagong, 0·73" at Tezpur and 0·62" at Sibsagar on the 2nd.

In other parts of the Indian region the weather was fine and rainless throughout the week. At the close of the week pressure was high and the weather promised to be fine generally, though showers are again becoming probable in North-East India.

The rainfall table shows that effective rain was received during the week over the Delta of Bengal, the Brahmaputra Valley, and the Dinajpur, Simla, and Cuttack sub-divisions. The average actual rainfall ranged from 1.42" in the Narayanganj sub-division to 0.17" in the Simla sub-division and was considerably heavier than usual over Assam, Bengal and Orissa.

In other places the week's rainfall was actually or practically *nil*.

The seasonal rainfall has been in excess of the normal over the Narayanganj and Simla sub-divisions and the North-West Dry, Baluchistan, South India and East Coast (South) divisions.

SIMLA:
The 4th February 1904.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 30th January 1904.

Madras.—There was no rain during the week. Irrigation supplies are generally sufficient. Ploughing, sowing, and transplanting are in progress in parts. The standing crops are generally good. Harvests continue with fair outturn. Pasture is sufficient. Fodder is procurable. The condition of cattle is good. Prices are almost stationary.

Bombay.—There was no rain during the week. The rainfall has been generally sufficient except in parts of Khandesh, Nasik, and Poona. The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, Poona, Satara, and Belgaum; by rats in parts of Khandesh, Nasik, Sholapur, Bijapur, and Belgaum; by frost in parts of Larkana and Ahmedabad; and by blight in parts of Ahmednagar and the Carnatic. They are also suffering from insufficient moisture in parts of Poona and Sholapur, but are generally in good condition elsewhere. Harvesting of autumn crops is nearly completed in Bijapur and continues in parts of Sholapur, Dharwar, and Baroda. Threshing is nearly completed in Ahmednagar and continues in parts of Nasik and Canara. The harvesting of spring crops is in progress in parts of Ahmednagar, Poona, Satara, and Belgaum. Cotton is slightly damaged by rats or blight in parts of Bijapur and Dharwar; is in fair condition in Guzerat; and generally in good condition in Belgaum, Wadhwan, and Rajkot. Picking is completed in Khandesh; is nearly over in Hyderabad, Thar and Parkar and Ahmednagar; and continues in parts of Ahmedabad, Broach, Poona, Belgaum, and Rajkot. The fodder supply is sufficient. Agricultural stock is generally sufficient and in good condition. The water-supply is generally adequate. Prices have fallen in nine districts; risen in three districts; and are stationary elsewhere.

Bengal.—Rain is reported from Balasore and parts of Bengal Proper. The fall was moderately heavy in East Bengal, but light elsewhere. The standing crops require rain in Burdwan, Murshidabad, Champaran, Malda, Hazaribagh, Palamau, and Singhbhum. Some damage to spring crops has been caused by insects in Burdwan and by hail in Malda. Prospects are otherwise good. Preparation of lands for early rice and jute is in progress. Fodder is sufficient, but scarcity of water is reported from a thana of Malda. The price of common rice has risen in eleven districts, has fallen in six, and is stationary in the remainder.

United Provinces.—Rain has fallen in twenty districts, but the weather has been generally fine. The crops are in good condition, but have been slightly damaged by rust in Shahjahanpur. Sugarcane is being pressed and spring crops irrigated. The poppy crop is doing well, but has been attacked by grubs in Fyzabad. The extraction of opium has begun in places. Supplies and fodder are adequate. Prices are stationary.

Punjab.—There was no rain during the week. The price of wheat is falling in Shahpur, Rawalpindi, and Mooltan. The prices of other food-grains are fluctuating. The pressing of sugarcane continues in Jullundur, Amritsar, and Sialkot. Toria is being threshed and cleaned in Mooltan. Land is being prepared for extra spring crops in Shahpur. The condition of the standing irrigated crops is reported good in all districts except Mooltan, where it is said to be average. Unirrigated crops are withering for want of rain in Delhi, Hissar, and parts of Ferozepore. The outturn of sugarcane in Sialkot and Shahpur and of Toria in Mooltan is reported to be average. Cattle are generally in good condition. Fodder is said to be sufficient in all districts except in parts of Rawalpindi.

North-West Frontier Province.—There was no rain during the week. Spring sowings have been finished. The condition of the standing crops is good. Stocks of food-grains and fodder are ample. The weather is cloudy, but no rain is required at present. Prices are easy and stationary. The condition of cattle is good.

Burma.—The rainfall was very slight in Bhamo. In Lower Burma threshing and winnowing of paddy are still in progress and a normal crop is expected. In Upper Burma reaping of wet weather paddy is completed. Cultivation of dry weather paddy and other crops is progressing. The outturn of wet weather paddy is good, except in Mandalay and parts of Katha, the Ruby Mines, and Yamethin districts. The price of paddy has risen slightly in Rangoon and Thayetmyo, and fallen in Tharrawaddy, Thaton, Pakokku, and Shwebo.

Central Provinces.—The weather has been clear and cool. The threshing of rice and the picking of cotton are approaching completion. The threshing of juar is in progress. Spring crops are generally in good condition. Wheat is in ear and gram and linseed have flowered. The anticipated outturns are generally above normal. The standing crops are generally in good condition, but some rain would much improve the prospects particularly on light soils. Frost in parts of Jubbulpore; insects in Raipur; and cloudy weather in Chanda, have caused slight damage to crops. Prices have fluctuated slightly.

Assam.—There was rain in all districts during the week. Harvesting of winter rice and pulse is nearly finished and the outturn is good. Tea pruning; sugarcane pressing; ploughing for rice and jute; and gathering of mustard are in progress. Prospects of mustard are fair. Fodder is insufficient in Cachar and in the hills. Water-supply is insufficient in the hills. Prices—common rice—Silchar 19; Sylhet 18; Dhubri, Gauhati, and Nowgong 16; Tezpur 14; and Sibsagar and Dibrugarh 12 seers per rupee.

Mysore.—Prices are steady in some parts and have slightly risen in others. The standing crops are good. Paddy is being harvested. The prospects of the season are good. Cattle are healthy. Water and fodder are available.

Coorg.—Threshing of rice and picking of coffee continue. Prices of food-grains are normal. Water and fodder are sufficient.

Hyderabad.—There was no rain during the week. The standing spring crops are in good condition and the harvest is in progress. Late rice sowings continue in parts. The standing crops are in good condition and are being weeded. Prospects are good. Prices—wheat 11; rice 11; and juar 32½ seers per halli rupee.

Rajputana.—There was slight rain in parts during the week. Agricultural operations are satisfactory. The condition of the standing crops is generally good. Agricultural stock is in good condition. Fodder is ample. Prices are favourable.

Central India.—There was slight rain in parts of Gwalior, but none elsewhere. Agricultural operations are in progress. Crops are good everywhere. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, Bhopal, and Baghelkhand; and steady elsewhere. Opium is good in Gwalior, Bhopal, Malwa, and Bhopawar; and indifferent in Indore.

Kashmir.—The weather is snowy and very frosty and, except on two days when it was bright, continues extremely cold. Prices are stationary.

Jammu.—There was no rain during the week. Prices are fluctuating. Wheat sells from 18 to 26, and maize 24 to 40 seers per rupee. The condition of the standing crops is good. Fodder is sufficient.

Nepal.—There was no rain during the week. The weather is cloudy. The price of rice is 6½ seers for the rupee.

J. WILSON,
Secretary to the Government of India.

E. N. BAKER,
Secretary to the Government of India.

Customs Circular No. III of 1904.

From—R. A. MANT, Esq., I.C.S., Under-Secy. to the Govt. of India, FINANCE AND COMMERCE DEPARTMENT, No. 400 S.R., dated 19th January 1904.

To—The Secretary to the Government of Madras, Revenue Department
Bengal, Financial Department,
The Revenue Secretary to the Government of Burma.

I am directed to acknowledge the receipt of your letter No. ¹²²¹~~5347~~ S.R., dated the ^{30th November 1903}~~12th December 1903~~, explaining the procedure adopted by the Customs authorities in dealing with imported articles which contain no silver, but which are marked as "German," "Potosi," "Nevada" or "Art" silver.

2. In reply, I am to say that the Government of India are of opinion that such goods, when marked as "German silver" or "Nickel silver," may be passed without objection. These trade descriptions are well known to all classes likely to be affected; and they have been in use for a sufficiently long period to render it very improbable that any purchaser will be deceived thereby.

3. The Government of India are not prepared to extend this ruling, however, to articles not made of silver, which are marked as "Potosi silver," "Nevada silver," "Austral silver," "Art silver," etc. They are of opinion that it would be unsafe to assume that descriptions of this nature would not deceive purchasers in India; and they consider that such goods, if marked in this manner, should be dealt with as bearing a false trade description within the meaning of the Indian Merchandise Marks Act, 1889 (IV of 1889).

4. I am to add that no objection should be taken to the use of such marks, provided that the word "silver" is omitted.

No. 633-S.R., dated Calcutta, the 3rd February 1904.

Secretary to the Government of India.

Customs Circular No. IV of 1904.

RESOLUTION—By the Government of India, Finance and Commerce Department, No. 399-S.R., dated the 19th January 1904.

The Government of India have recently had under consideration the question of defining the articles which may properly be passed free of customs duty as passenger's baggage

Collectors of Customs have at present absolute discretion under section 24 of the Sea Customs Act, 1878 (VIII of 1878), to determine whether any particular goods shall be treated as baggage in actual use or as goods subject to duty. The practice consequently varies at the different ports, and cases have been brought to notice in which personal baggage has been taxed to an unnecessary extent. The Government of India consider it desirable to secure, as far as possible, uniformity of practice at all Customs ports, and at the same time to grant to *bond fide* passengers the most liberal treatment which is consistent with the safety of the Customs revenue. In their judgment all articles which are brought into the country by a passenger in reasonable quantity for his personal use may, with a few specified exceptions, be exempted from duty; and they consider that this concession may reasonably be extended to cases where the baggage either precedes or follows the passenger to the same or to another Customs port in India.

2. After consultation with the Maritime Local Governments, the rules appended to this resolution have been framed in order to give effect to this decision.

Rules for the exemption of passenger's baggage from Customs duty.

1. Baggage includes all packages accompanying and imported by a passenger for his own use, or that of the members of his family travelling with him, which are not part of the cargo and are not entered in the manifest.

Provided that any package, whether entered in the manifest or not, may be treated as baggage if the Collector of Customs is satisfied that it really forms part of the *bond fide* baggage of a passenger.

Provided also that any package which is landed within one month before or after the arrival or anticipated arrival of the passenger, either at the same port or otherwise, may be treated as baggage, if the Collector of Customs is satisfied that it may reasonably be deemed to form part of the passenger's *bond fide* baggage.

2. Subject to the exceptions specified below, all baggage, of whatsoever articles it may consist, is exempt from duty, provided that it satisfies both of the following conditions, namely:—

- (a) that the number or quantity of each article is moderate and reasonable having regard to the status and occupation in life of the passenger, and
- (b) that it is for his personal use or that of his family travelling with him, and not for sale.

Exceptions—

The following articles are liable to duty whether included in *bond fide* baggage or not, namely:—

- (a) Arms and ammunition, and all articles enumerated in Schedule II of the Tariff Act (Act VIII of 1894).
- (b) Alcoholic liquors exceeding two quarts in quantity, perfumed spirit exceeding one quart, and all other articles enumerated in Schedule III of the Tariff Act.
- (c) Cigars exceeding 50 in number or in an unopened box, cigarettes exceeding 100 in number, and other tobacco exceeding 1 lb. in weight.
- (d) Petroleum.

GOVERNMENT OF INDIA.
FOREIGN DEPARTMENT.

Fort William, the 6th February 1904.

The following modifications to the Brazilian Regulations respecting Consular Invoices which appeared in the Supplement to the *Gazette of India*, dated the 9th February 1901, are published for information :—

CONSULAR INVOICES FOR BRAZIL.

The attention of Shippers to Brazil is called to the following modifications of the Regulations respecting Consular Invoices for Brazil, which come into force in the Consulates in Europe on the 18th January 1904.

Consular Invoices will not be required for Parcels or Samples, of a value, in the place of exportation, not exceeding £10 or its equivalent, inclusive of freight, packing, commission, etc.

Three copies will form a set, and will be disposed of as follows :—

- 1st will be returned to the shipper to forward to the consignee in order to obtain delivery of the merchandise by the Custom House.
- 2nd will be forwarded to the Department of Commercial Statistics by the Consulate.
- 3rd will remain in the archives of the Consulate.

Consular Invoices may henceforward be legalized in the Brazilian Consulate, either in the port of shipment, or in the place whence the merchandise proceeds.

The weight in kilogrammes will be declared as follows :—

Gross of packages—The total gross weight.

Real net weight—The weight of the merchandise only, exclusive of all packing and covers.

Gross weight of merchandise—The weight of the merchandise with the covers such as Drums, Bags, Cases, Cardboard Boxes, etc., as mentioned in the Customs Tariff.

Thus, when the merchandise pays duty on the real net weight, it will be sufficient to give the gross weight of the Packages and net of the Articles, exclusive of all packing and covers.

When the merchandise pays duty on the gross weight in the covers, as mentioned in the Tariff, this weight is to be given in the respective column.

For merchandise such as essential oils or volatile oils and essences, the declaration of the gross weight in the packing immediately covering the merchandise is sufficient.

When the merchandise pays duty other than by weight, such as by the dozen thousand, hundred, cubic metre, etc., the quantity is to be declared.

The net weight column may therefore be headed according to the weight or quantity declared, or a new column added as necessary.

The section referring to the duties and obligations of Captains and other Carriers is entirely deleted.

GENERAL OBSERVATIONS.

Invoices may still be drawn up either in Portuguese or in the language of the country whence they proceed, and by hand or copying machine, but always in such manner that they are distinctly legible and in indelible ink.

The port of shipment to be declared is the port in which the goods are actually shipped for Brazil.

The specification of the merchandise may still be made in accordance with the official nomenclature or the commercial usage; in the latter case, it is imperative that the material from which each separate article is made, shall be declared.

The fee remains unaltered.

Brazilian Consulate General, Liverpool, 30th December 1903.

True copy.

L. W. DANE,

Secretary to the Government of India.

SUPPLEMENT TO
The Gazette of India.

No. 7. } CALCUTTA, SATURDAY, FEBRUARY 13, 1904.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 a.m. on Thursday,
the 11th February 1904, based on the India Daily Weather Reports
of the period.**

The weather has been rainless throughout the week under review over India. Showers fell over Persia on the 5th and 6th, and unsettled weather with rain appeared over Baluchistan on the 7th and 8th, while snow fell in Kashmir on the 8th and 9th. These unsettled conditions never penetrated into North-West India where the weather was dry throughout and where at the close of the week there was no sign of change.

Assam and North-East India have also had fine weather throughout the week, but on the 11th conditions were becoming slightly less settled and showers appeared probable in the Brahmaputra Valley.

Rain was falling over East Ceylon at the close of the week and the winds were cyclonic over the south-west of the Bay, so that showers were possible in this area also.

The rainfall table shows no rain except in Baluchistan and the East Coast (South). The seasonal returns exhibit a diminishing excess over the south of the Peninsula, normal rainfall over the Calicut, Simla and Narayanganj sub-divisions and the North-West Dry and Baluchistan divisions and deficient rain elsewhere.

RAINFALL DIVISION WITH REPRESENTATIVE STATION.	Rainfall sub-division named after representative station.	RAINFALL DATA FOR WEEK ENDING ON 11TH FEBRUARY 1904.			RAINFALL DATA FROM 4TH DECEMBER 1903 TO 11TH FEBRUARY 1904.			SEAS PERCENT VARI.
